No End in Sight to Re-Keying Costs

With no end in sight to re-keying costs, Grace Christian Center realized they could not afford to continue with the master key system they had in place. Due to lost keys, they had to use outside contractors to re-key their buildings three times in a span of six years. The church began searching for a security solution that would increase their level of security and protect physical assets that help them minister to their people. CyberLock History Tidbits

In 2006, the CyberLock system was honored by the Worship Facilities Conference and Expo (WFX) with the *Best Security Product Award* and *Best Overall Building System Award*. In 2009, Videx once again won the WFX show's *Best New Security Product Award* for the XD Rechargeable CyberKey.

Ready, Camera, Action!

CyberLock rides an elevator to the top floor—just one of the many ways that customers are using CyberLock to control access to sensitive areas.
